Battery operation possible Battery size AA (6 x 1.5V) not included. Operating time approx. 60 h

Both models:
Animal weighing program When the animal moves during the weighing process, a stable average value is obtained by using the HOLD key. This value remains "frozen" until the HOLD key is pressed again

Both models:
Technical Data:

Display device WxDxH 210x110x45 mm

Cable length approx. 1,8 m

Permissible ambient temperature +10... +35 °C

UNITS Further weighing units: see the internet

Adjusting program (CAL): For quick setting of the balance's accuracy. External adjusting weight required.

Weighing units: can be switched to e.g. non-metric units at the touch of a key. See balance model.

Battery operation: The battery type is specified for each device.

Animal weighing program: strong vibrations are filtered out.

Mains adapter: 230 V/50Hz in standard version for Germany. On request GB, AUS or USA version.

Tare: put back displayed value to „0“ during weighing process, e.g. to add or remove weighing material from a container.
